# Driving Change Beyond The Fairway

The Drive for a Difference Golf Classic was created with one purpose: bringing people together to create lasting impact in our community. This premier golf event unites healthcare leaders, business professionals, philanthropists, and community advocates around a shared commitment to improving lives through access to care, mental wellness, education, and support services.

Every sponsorship, registration, and contribution directly supports organizations working to create healthier futures for individuals and families throughout Central Florida. Because when communities have access to care, everyone wins.

“Golf is the reason we gather. Impact is the reason we exist.”

# Supporting Two Organizations Making A Difference Every Day

Mindsite Foundation is dedicated to expanding access to mental health care through counseling services, psychiatric support, education, and community outreach. Their mission is to help individuals and families thrive by addressing mental wellness through a holistic approach that supports the mind, body, and spirit.

Adya Care Foundation provides support, resources, education, and wellness initiatives for individuals and families navigating health challenges. Through community-centered programs and compassionate care, they help bridge gaps in support while creating pathways to healthier lives.

Together, these organizations are helping build stronger, healthier communities throughout Central Florida.
